

**STATE OF WYOMING**

**Department of Environmental Quality/Division of Air Quality**

**PUBLIC NOTICE**

**Chapter 6, Section 2(m) of the Wyoming Air Quality Standards and Regulations provides that prior to final determination on an application to authorize operation of an existing source and construct a new source, opportunity be given for public comment and/or public hearing on the information submitted by the owner or operator and on the analysis underlying the proposed approval or disapproval. The regulation further requires that such information be made available in at least one location in the affected air quality control region, and that the public be allowed a period of thirty (30) days in which to submit comments. The thirty (30) day comment period began on August 20, 2014, and was scheduled to end at the close of the September 22, 2014 public hearing. Notice is hereby given that the State of Wyoming, Department of Environmental Quality, Division of Air Quality will extend the comment period on the proposed operation listed below until 5:00 pm, Friday, October 24, 2014.**

**The State of Wyoming, Department of Environmental Quality, Division of Air Quality proposes to approve a request by the following applicant to authorize operation of an existing source and construct a new source in Teton County, Wyoming.**

**RST Sand and Gravel  
P.O. Box 1709  
Jackson, WY 83001**

**The applicant has requested permission to authorize existing operations of the RST Sand and Gravel Pit, which will include sand and gravel crushing, screening, exposed acreage, stockpiling and haul activity, and to install stationary crushing/screening**

**equipment to be located at the RST Sand and Gravel Pit. The RST Sand and Gravel Pit is located in the NE1/4 of Section 19, T40N, R116W, approximately five (5) miles south-southwest of the Teton County Clerk's Office, in Jackson, Wyoming. The applicant estimates an annual production rate of 52,000 tons. No hot mix asphalt plants or concrete batch plants are planned for this site. Maximum production for the stationary crushing/screening equipment is reported at 52,000 tons per year (tpy) and 180 tons per hour (tph).**

**A copy of the permit application and the agency's analysis are available for public inspection at the Teton County Clerk's Office, Jackson, Wyoming. In accordance with the Americans with Disabilities Act, special assistance or alternate formats will be made available upon request for individuals with disabilities.**

**Comments may be directed to Steven A. Dietrich, Administrator, Division of Air Quality, Department of Environmental Quality, 122 W. 25<sup>th</sup> St., Cheyenne, Wyoming 82002 or by fax at (307) 777-5616. Please reference AP-16592 in your comments. Comments submitted by email will not be included in the public record. All comments received by 5:00 p.m., Friday, October 24, 2014, will be considered in the final determination on this application.**
