RE: Request to Postpone September 22, 2014 Public Hearing for RST Sand and Gravel's Application for Air Quality Permits

Dear Mr. Dietrich:

On behalf of the Meadows of Melody Ranch Homeowner's Association (the "Association"), I write to request a thirty (30) day postponement of the public hearing scheduled for September 22, 2014 related to the RST Sand and Gravel applications to authorize operation of an existing source and to construct a new source in Teton County, Wyoming.

Melody Ranch is a subdivision of approximately 350 homes, all of which are in close proximity of the RST Sand and Gravel Operation. Unfortunately, and despite our efforts to track legal notices in the Jackson Hole News and Guide, neither the Association nor I became aware of the September 22, 2014 public hearing until earlier this week. We would like a short postponement so that we have time to adequately analyze the application materials and the DEQ's analysis with the goal of allowing neighboring residents and the Association to present accurate and meaningful public comment for the DEQ's consideration.

If the DEQ is unwilling to grant the requested postponement, we would request that either a shorter postponement be allowed, or, alternatively, that the time period for submitting written comment be extended beyond September 22, 2014.

Thank you for your consideration and please don't hesitate to contact me if you have any questions.

Regards,

Nicole G. Krieger
