STATE OF WYOMING

Department of Environmental Quality/Division of Air Quality

PUBLIC NOTICE AND NOTICE OF PUBLIC HEARING

Chapter 6, Section 2(m) of the Wyoming Air Quality Standards and Regulations provides that prior to final determination on an application to authorize operation of an existing source and construct a new source, opportunity be given for public comment and/or public hearing on the information submitted by the owner or operator and on the analysis underlying the proposed approval or disapproval. The regulation further requires that such information be made available in at least one location in the affected air quality control region, and that the public be allowed a period of thirty (30) days in which to submit comments.

Notice is hereby given that the State of Wyoming, Department of Environmental Quality, Division of Air Quality, proposes to approve a request by the following applicant to authorize operation of an existing source and construct a new source in Teton County, Wyoming.

RST Sand and Gravel P.O. Box 1709 Jackson, WY 83001

The applicant has requested permission to authorize existing operations of the RST Sand and Gravel Pit, which will include sand and gravel crushing, screening, exposed acreage, stockpiling and haul activity, and to install stationary crushing/screening equipment to be located at the RST Sand and Gravel Pit. The RST Sand and Gravel Pit is located in the NE1/4 of Section 19, T40N, R116W, approximately five (5) miles south-southwest of the Teton County Clerk's Office, in Jackson, Wyoming. The applicant estimates an annual

production rate of 52,000 tons. No hot mix asphalt plants or concrete batch plants are planned for this site. Maximum production for the stationary crushing/screening equipment is reported at 52,000 tons per year (tpy) and 180 tons per hour (tph).

A copy of the permit application and the agency's analysis are available for public inspection at the Teton County Clerk's Office, Jackson, Wyoming. In accordance with the Americans with Disabilities Act, special assistance or alternate formats will be made available upon request for individuals with disabilities.

Pursuant to the provisions of the Wyoming Environmental Quality Act and the Wyoming Air Quality Standards and Regulations, a public hearing relative to the requested issuance of an air quality permit for the proposed authorization of an existing source and construction of a new source will be held by the Administrator of the Air Quality Division, Department of Environmental Quality at 6:00 pm, Monday, September 22, 2014 at the Ordway Auditorium, located in the Teton County Library, 125 Virginian Lane, Jackson, Wyoming.

The hearing will be conducted pursuant to the provisions of Chapter III of the Rules of Practice and Procedure adopted by the Environmental Quality Council, and therefore, will not be conducted as a contested case. The purpose of the hearing is to gather information concerning the emissions of air pollutants into the atmosphere and the impact of such pollutants on the ambient air quality. The scope of the hearing will be limited to such issues in order for the Department of Environmental Quality to determine whether or not the applicable Air Quality Standards and Regulations will be violated as a result of the modification and/or operation of the facility.

All persons desiring to be heard on this matter are hereby notified to appear at the designated time and place. Oral statements will be accepted at the time of the hearing, but for accuracy of the record, written statements are encouraged and will be accepted at the time of the hearing or prior thereto.

Comments may be directed to Steven A. Dietrich, Administrator, Division of Air Quality, Department of Environmental Quality, 122 W. 25th St., Cheyenne, Wyoming 82002 or by fax (307) 777-5616. Please reference AP-16592 in your comment. Comments submitted by email will not be included in the public record. All comments received prior to and up to the closing of the public hearing, Monday, September 22, 2014 and during the public hearing, will be considered in the final determination on this application.
