Subject: Melody - Rafter J - Road Connectivity Language Dropped

All – thanks for talking to various County commissioners.

Just to let you know the final Comp Plan draft is now online and they have dropped the direct language on connecting Melody Ranch and Rafter J roads – plus toned down the goal as follows:

Rich

Policy 7.3.a: Develop a land use pattern based on transportation connectivity

A goal of this plan is to interconnect existing County neighborhoods and the Town of Jackson with a multimodal transportation system. Within existing County and Town complete neighborhoods, alternative modes of transportation are viable for daily trips year-round, and these opportunities should be maintained and enhanced. Outside of complete neighborhoods the Town and County will promote a land use pattern that supports alternative transportation by requiring interconnectivity of future developments and existing development to the best extent possible.
