This special meeting was called as a follow up to the board meeting of January 17, 2024 where the board reviewed the bids to drill a new well with Matt Ostdiek. Matt visited with the lowest bidder to discover their thoughts about the rebidding process. After discussion, the board opted to rebid the entire project at once, for the third time.

Jim moved to have Matt put the whole project out to bid. Justin seconded the motion which passed unanimously. The board agreed to keep all bid amounts confidential for the time being.
